

About Us

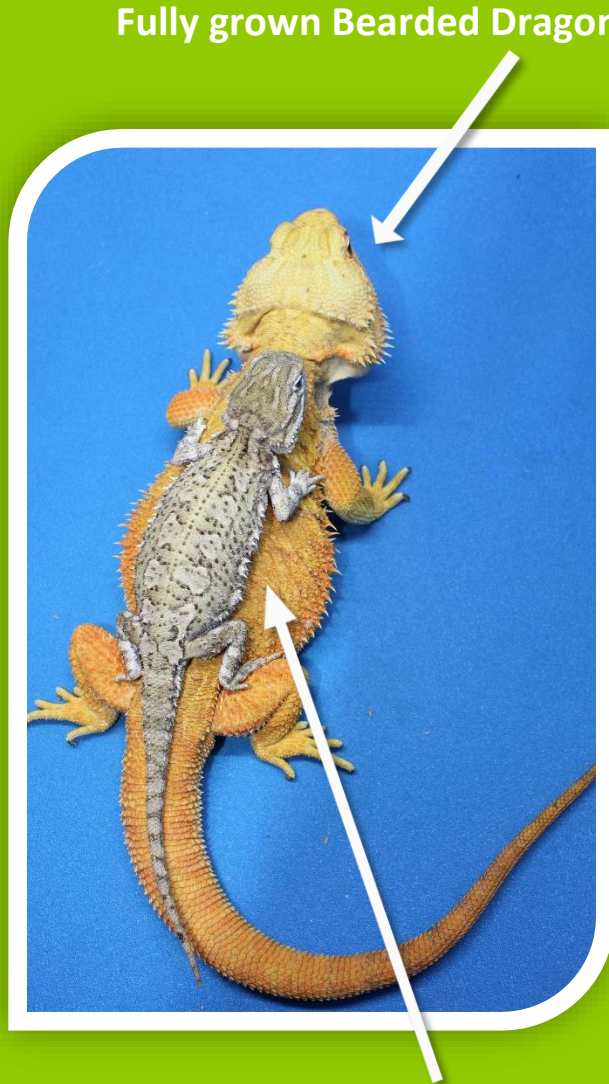

Here at Kelowna Bearded Dragons we have been breeding and raising Dragons for over 12 years. We are excited to say we have now branched out to breeding Rankin Dragons as well!

If you are interested in purchasing a Rankins Dragon let us know and we can add you to the wait list to be notified once they are ready to go to new homes. Shipping is available throughout Canada and the U.S.

Questions are always welcome!

Fully grown Rankins Dragon

Rankins Dragons

Care

Facts

Info

Grow up to 10"-12"

Desert Reptile

Full of personality!

Native to Australia

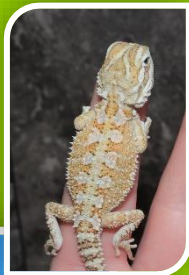

Lifespan of 6-10 years

Like being handled

Rankin Dragons, otherwise known as Lawson Dragons (*Pogona henrylawsoni*) are considered to be like miniature Bearded Dragons.

Rankins have similar care requirements as Bearded Dragons, but instead of growing to be up to 24" long like Bearded Dragons can, they only grow to be 10"-12" long when fully mature.

Care Requirements

Minimum 30" Long Enclosure (For Adult)

Daytime Basking Temp of 95° F - 110° F

Daytime Cool side of 75° F - 80° F

UVB Lighting (10.0 T8 or T5 UVB Tube)

Omnivorous Diet of Vegetation & Insects

Daily misting and/or water dish
